Description

At **Danske Group IT**, we deliver world-class digital financial solutions that empower millions of customers. Technology is at the heart of our business, and our teams solve complex engineering challenges while building innovative digital products that shape the future of banking.

We are looking for an **Experienced Python Developer** to join the **Partnership Domain Exit Program** and play a key role in delivering technical solutions for a strategic migration initiative.

What You'll Do

- Lead the delivery of technical solutions within the Partnership Domain Exit Program with minimal supervision.
- Design, develop, and maintain robust solutions using **Python**, **SQL**, and modern cloud technologies.
- Provide architectural guidance and technical leadership throughout migration activities.
- Build and optimize data integration solutions and ETL/ELT processes.
- Identify technical risks, dependencies, and opportunities to simplify complex systems.
- Collaborate with cross-functional teams to deliver high-quality, scalable solutions.
- Contribute to DevOps practices, automation, and

CI/CD implementation.

What We're Looking For

- **10+ years** of professional software development experience.
- Strong expertise in **Python** development.
- Advanced knowledge of **SQL** and relational databases.
- Experience with modern **cloud-based data platforms**.
- Hands-on experience with **ETL/ELT pipelines** and data integration.
- Good understanding of **DevOps**, automation, and **CI/CD** practices.
- Ability to independently drive technical solutions and provide senior-level engineering leadership.
- Excellent communication skills in English.

Contract Details

- **Start Date:** 1 September 2026
- **End Date:** 31 December 2026
- **Engagement:** Full-time contract
- **Location:** Remote (Lithuania, Poland, Estonia, Latvia, Czech Republic, Romania, Bulgaria, or Hungary)

Why Join Danske Group IT?

- Work on a high-impact transformation program within one of the leading financial institutions in the Nordics.
- Collaborate with experienced international engineering teams.
- Solve complex technical challenges using modern technologies.
- Access continuous learning and professional development opportunities.
- Enjoy a flexible remote working environment.

Recruitment Process

The selection process includes:

- CV review
- Technical interview with the Hiring Manager (Alexander Fischer Paulsen)
- Evaluation based on experience, technical fit, and daily rate

If you're an experienced Python engineer who enjoys solving complex technical challenges and driving modern cloud-based solutions, we'd love to hear from you.
