Description

We are looking for 2 Senior FLEXCUBE System Analysts to strengthen the Core Banking team of a large banking client.

This is a senior techno-functional consulting role focused on the development, improvement, and ongoing transformation of the Oracle FLEXCUBE (FCUBS) platform.

The existing team is currently heavily engaged in product setup activities, creating a need for additional senior expertise around platform-level development, technical debt reduction, core functionality improvements, migrations, and transformation initiatives.

We are looking for highly experienced specialists who combine deep core banking knowledge with strong hands-on Oracle FLEXCUBE expertise and who can work independently across both business and technical domains.

What You'll Do

- Analyse, develop, and improve functionality within the Oracle FLEXCUBE core banking platform
- Support platform-level development and reduction of accumulated technical debt

- Analyse and configure FLEXCUBE products, parameters, events, accounting roles, and accounting rules
- Support ongoing migration and banking transformation initiatives
- Analyse core banking processes and translate business requirements into technical solutions
- Investigate production issues using database queries, application logs, interfaces, and technical documentation
- Perform data analysis and validation using SQL
- Analyse integrations using SOAP/REST web services and XML messages
- Work with FLEXCUBE database, application, and interface architecture
- Collaborate closely with business, Core Banking, architecture, development, and support teams
- Contribute ideas and improvements to the long-term evolution of the platform

Must-Have Experience

We are looking for a very senior, hands-on FLEXCUBE professional with proven practical experience in:

Core Banking

- Strong hands-on experience with core banking operations
- Deep understanding of:
 - Account lifecycle
 - Interest calculations
 - Fee calculations
 - Accounting entries
 - Regulatory reporting concepts

Oracle FLEXCUBE

- Strong commercial experience with Oracle FLEXCUBE / FCUBS
- Hands-on experience with:
 - FLEXCUBE product setup and parameters
 - Events
 - Accounting roles and rules
 - FLEXCUBE database architecture
 - Application architecture
 - Interfaces and integrations

Technical Skills

- Strong SQL skills for data analysis, troubleshooting, and validation
- Experience with SOAP and REST APIs
- Experience working with XML messages

- Ability to analyse UNIX/Linux application logs
- Ability to confidently read technical documentation, system specifications, and logs

Additional Requirements

- Proven experience working in production and/or application support environments
- Strong analytical and problem-solving capabilities
- Ability to independently investigate complex platform-level problems
- Proactive personality with the ability to generate and challenge ideas
- Comfortable communicating with both business and technical stakeholders
- Mature professional communication skills
- Fluent English, both spoken and written

Nice to Have

- Knowledge of banking messaging and payment standards such as:
- ISO 20022
- SWIFT MT/MX
- Oracle FLEXCUBE certifications

Engagement Details

- Positions: 2 FTE
- Seniority: Senior / Expert level
- Location: EU
- Working model: Fully remote
- Start: ASAP
