Aprašymas

We’re looking for a motivated IT Systems & Automation Engineer (AI Focus) to join the expanding Octohide VPN team. In this role, you’ll support and manage the infrastructure powering a VPN used on over 20 million devices worldwide. While technical skills matter, we prioritize a strong eagerness to **learn** and **grow** alongside us in a fast-growing environment dedicated to security and reliability.

What You’ll Do

- Monitor and maintain VPN servers on Kubernetes and VMware, diagnose Kubernetes cluster issues as they arise
- Support server setup, updates, and overall network and server security
- Diagnose issues related to throughput, latency, packet loss, or routing
- Monitor system resources and logs, respond to incidents, and perform root-cause analysis
- Implement AI solutions in-house, automate processes, work with LLMs, and bring your own technological ideas to life.
- Work with the team to improve infrastructure and security practices

Requirements

- Strong hands-on experience with Linux servers and Docker/Kubernetes
- Understanding of TCP/IP, tunneling, routing, DNS
- Familiarity with LLMs and their practical applications

Nice to Have

- Practical experience with VPN protocols
- Experience automating server configuration (Bash scripts, Python, etc.)
- Experience with cloud providers (AWS, OVH, etc.).
- Knowledge of CDN, or BGP (big bonus).
- Hands-on hardware server management experience
- Virtual machine experience

Soft Skills

- Ability to work independently and take ownership
- Strong analytical and troubleshooting skills
- Good communication and documentation skills
- Willingness to learn advanced networking and security technologies

We Offer

- **Remote work option -** Work comfortably from home with a flexible schedule
- **Growing, innovative company -** Be part of a rapidly expanding product that’s constantly evolving
- **Friendly, motivated team -** Collaborate with supportive colleagues who value teamwork and personal growth
- **Room for ideas -** Share your suggestions and actively contribute to improving the product and infrastructure
- **Complimentary lunch -** Enjoy lunch provided every working day
- **Performance-based bonuses -** Additional financial incentives based on results and contribution
- **Competitive Salary -** Base 2300-3600 €/month gross, based on your skills and experience

Required Skills
