Apie Mane

Results-driven professional with advanced proficiency in topics as Business Intelligence practical concepts (Informatica PowerCenter, Back- and front-end: Cognos, Qlikview), Database development, Visual Basic, DELPHI, JAVA software development, and extensive knowledge in foreign language learning and understanding principles.

Reliable accomplishments in development lifecycle from needs assessment through to implementation and support.

A talent for problem solving, applying logical and creative approaches to implement effective solutions; as for applying language skills for translating, communicating and teaching.

A quick learner who has been consistently cited for the ability to adapt easily to advances in technology as for being stood out as obtaining remarkably and notorious results in the field of work.

Willing to work abroad and get to know new work environments in order to get my skills enhanced and to become a more effective and qualified professional. I currently live in Brazil and I am Brazilian.

When I'm not at work, I really enjoy learning different languages and engaging in other cultures.

Please, feel free to get in touch to exchange views and ideas!

Languages I speak: Portuguese, English, German, Japanese, French and Russian. And always learning a new one!
