### Aprašymas

On behalf of our client, we are looking for a Data Engineer (permanent position).

#### Role Overview:

As a Data Engineer supporting the AXA XL account, you will be responsible for designing, building, and maintaining scalable data pipelines and analytics platforms that support insurance operations, claims processing, and AI-driven workflows. You will work closely with architects, analysts, and AI engineers to deliver high-performance data solutions aligned with AXA XL's transformation goals.

#### Key Responsibilities:

- Develop and optimize ETL pipelines using Azure Data Factory, Databricks, and PySpark.
- Migrate legacy data workflows (e.g., SSIS, Autosys) to cloud-native solutions on Azure.
- Build and maintain Delta Lake architectures and data lakes for structured and unstructured data ingestion.
- Support human-in-the-loop (HITL) data intake processes and AI model retraining workflows.
- Implement RBAC, audit logging, and compliance features for secure data operations.
- Collaborate with cross-functional teams to define data requirements and deliver business-aligned solutions.

#### Required Skills & Experience:

- 5+ years of experience in data engineering,

preferably in insurance or financial services.

- Strong proficiency in Azure, Databricks, PySpark, and SQL.
- Experience with data lake architecture, Delta Lake, and cloud migration strategies.
- Familiarity with workflow orchestration, metadata management, and data quality frameworks.
- Understanding of AI-enhanced data workflows and document intelligence platforms.
- Excellent problem-solving and communication skills.

#### Preferred Qualifications:

- Experience with Azure Functions, Azure Batch, and event-driven architectures.
- Exposure to document ingestion, field extraction, and HITL UI design.
- Knowledge of insurance business processes, especially claims and underwriting.

#### What we offer:

Opportunity to be part of a global organization. Encouraging working atmosphere, engaging activities, and extra benefits (e.g. additional medical insurance (covers gym subscription), team events, outreach activities, and others);

Hybrid work model with remote work opportunities.

Open, modern, and ergonomic work environment when working from the office with the multicultural community.

Opportunity to grow professionally and personally (e.g. Udemy) and continuously develop within the domain.

The salary range for this position is from 4.125 to 6.875 gross before taxes.\*
