## Description

We are looking for a freelance Scrum Master.

**Project/Client:** public

**Location:** remote/ES

**Seniority:** Middle

**Language:** Lithuanian

### Role Overview:

We're looking for **Scrum Master** to join public sector projects, contributing to the development, modernization, and creation of digital solutions. This is a unique opportunity to help drive the digital transformation of our public services and make a meaningful impact on society.

### Must-Have Requirements:

- Proven experience as a **Scrum Master** in an Agile environment (minimum 2 years).
- Strong understanding of **Scrum, Kanban,** and **Agile** principles.
- Excellent facilitation, communication, and coaching skills.
- Ability to navigate complex team dynamics and drive outcomes.
- **Fluency in Lithuanian is a must.**

- Proficiency in English (minimum B2 level, written and spoken).
- Scrum Master certification is considered an advantage.

**Responsibilities:**

- Facilitate daily stand-ups, sprint planning, retrospectives, and reviews.
- Remove blockers and support the team in staying focused and productive.
- Foster a culture of continuous improvement and collaboration.
- Work closely with the System Analyst and stakeholders to ensure backlog clarity and alignment.
- Track team performance and help optimize workflows.

## Required Skills

**METHODS**

Scrum 2-3 years
