Description

Project Manager is responsible for directing and managing projects from Initiation through Closing and Stabilization. Is expected to provide leadership, guidance, and oversight of all project activities to enable maximum value throughout the project lifecycle. The Project Manager is the key between Project Stakeholders, the Leadership Team, Business Owners and the Project Management Office.

Responsibilities:

- Project intake development and preliminary scope statements
- Requirements gathering, scope development, scheduling and planning
- Monitoring and reporting project status in the areas of budget, schedule, risks, issues, and project change requests
- Adherence to internal audit requirements as defined by the standards
- Communication with clients
- Monitoring of resource utilization and alignment with project needs
- Provide problem solving, root cause analysis and preventive/corrective actions as required to support the project or program

Requirements:

- Project Management training and PMP

certification preferred

- ITIL certification a plus
- 4+ years of professional experience, ideally with a minimum of 2+ years of Project Management experience
- Proficiency in planning tools
- Possess in depth knowledge of large-scale Application, Business and Technical Infrastructure implementations
- Able to manage multiple projects simultaneously
- Agile Scrum experience preferred
- Experience managing infrastructure, cloud and security projects
- Demonstrated understanding of infrastructure implementation methodologies, tools, and best practices

Interested applicants are encouraged to apply by sending their CV to careers@isxfinancial.com
