Description

BeeSense EU is a High Tech Company developing advanced homeland security (HLS) systems that include Visual/Thermal Cameras and Radar while providing sensor fusion, object detection and tracking, on edge ML/AI as well as .NET based applications.

BeeSense EU office in Vilnius is the main R&D center of Israel based mother-company BeeSense which is part of Avnon Group (avnongroup.com).

BeeSense EU is also operating sales and marketing activities in the Baltics HLS market.

They are looking for **.NET/C#** to join their international development team and help maintain latest improvements in application development.

Core Responsibilities:

- Design, develop, implement, debug and test C# .NET windows software and internal tools
- Frontend and backend: frontend – client side GUI WPF application, backend – client and server side communication (tcp/udp/webservice)
- Working with embedded engineering team to implement common interfaces
- Operate in an Agile development environment while collaborating with key stakeholders

Essential Position Requirements:

- 3+ years of experience with C# programming language
- In-depth understanding of data structures
- Proficiency in multi-threaded environments
- Familiarity with .NET Web API
- Fluency in written and verbal English

Additional Bonus Skills:

- Video streaming, encoding and decoding experience
- ONVIF video communication protocol
- Experience with other programming languages: Python, C++, etc.
- Familiarity with distributed/parallel application development

BeeSense EU is offering:

- Contribute to cutting edge technology products
- Motivating fast-paced, multicultural environment
- Convenient office location at the heart of Vilnius old town
- Flexible working hours and partial option to work from home
- Private medical health insurance
- Monthly Team Lunch days, good coffee and friendly chats

**Required Skills**
